LUMI™ DRUG SCAN

REAL-TIME DRUG ANALYSIS · RICH DATA INSIGHTS

Lumi Dashboard

From data to action – transform analysis activity into operational intelligence

A secure, browser-based view of your organisation's Lumi activity, helping supervisors and analysts see where substances are being detected, track changing patterns and understand device use.

LIVE ACTIVITY
GEOGRAPHIC PATTERNS
DEPLOYMENT INSIGHT

A clearer operational picture from every Lumi analysis

Operational overview

Review key data for devices, users, events, analysed items and substances of interest.

Substance trends

Track results over time by substance to identify emerging patterns and changes in the local drug environment.

Regional hotspots

Map analysis results across your region and explore the substances identified in each area.

Device activity

Understand how frequently Lumi devices are being used and where operational activity is occurring.

Flexible filtering

Focus the view by region, substance and date range, then summarise patterns by day, week, month or year.

Export data

Download selected dashboard dataset for further analysis and reporting.
